Column Sentry Protection

Protect one of your biggest capital investments with Column Sentry

Group Including: Egmont Doors & totalDOORS

www.ultigroup.co.nz

We found
a way to take the
SHOCK!!

out of those unexpected
collisions...

Column Sentry cushions those big bumps, preventing expensive column damage, and it's:

Incredibly tough

- Column Sentry, a patented product, is molded from a semi-flexible and stress-crack resistant plastic
- It minimizes the force of tow motor impact that can damage columns, surrounding supports, vehicles and operators
- Twenty-four pockets strategically placed around
- Column Sentry's circumference are angled to help deflect impact energy away from the column
- The vent hole forces air out at a controlled rate, deflating slowly and maintaining impact resistance
- Column Sentry nests within the column flanges, eliminating side slip when hit from any angle

Column Sentry Protection

Highly visible

- Bright Safety Yellow
- UV stabilized plastic permanently prevents fading or discoloration
- Waterproof, easy to clean and removable for maintenance
- Chemical-resistant and non-conductive

Easily installed

- One person can install the lightweight Column Sentry in seconds
- Simply position the two halves around the column and fasten the hook and loop straps
- Install during original construction or after construction is completed
- It is quickly removable for painting and maintenance
- No need for clumsy gravel ballast or concrete
- Save time, labor and the cost of other materials

Surprisingly cost-effective

- Protects the structural integrity of your building
- Costs a fraction of column replacement
- A one-time “insurance” investment

Extremely versatile

- Approximately 24”/61cm(d) x 42”/107cm(h)
- Fits over 80% of standard columns
- Custom sizes are available
- Protects columns under virtually any condition and in temperatures down to 0°F
- Column Sentry is easily stackable for protection at greater heights
