THE MOST RELIABLE DOOR is also the cleanest

Light, easy-to-remove side frames for more thorough cleaning.

Built to withstand the harshest washdown applications. The most reliable door is also the cleanest.

FasTrax® Clean. The fastest, smartest, most reliable, most productive door around is now the cleanest.

You can't find a more reliable door. And now you can't find a cleaner one. Introducing FasTrax Clean. All the high-speed performance you expect from FasTrax - with a total commitment to clean. The washdown door that has it all. From the upper track to the side frames to the door fabric, every part, every component, every system engineered specifically for clean environments. Fewer areas and materials that can trap and hold particles and bacteria. And everything built for fast, easy, safe, thorough cleaning. We're talking full 360° clean. With full USDA and FDA compliance for design, parts and materials. The standard for reliability is now the standard for clean.

SIMPLE DESIGN

Designed around a single operational platform, highly versatile FasTrax doors can match virtually any interior, exterior, high-wind, cooler, freezer or washdown high-cycle door application - reducing the complexity of maintaining multiple door models in one facility.

VERSATILE TRACK DESIGNS

Able to store the door curtain in various track configurations, FasTrax doors fit almost any application with fewer costly building modifications.

THE INDUSTRY'S SAFEST DOOR

Multiple safety features including standard Soft-Edge™ Technology, thru-beam photo eyes and optional I-Zone™ make FasTrax an easy choice for safety.

MORE CHOICES AND OPTIONS

Simple. Choose only the features you need.

MAXIMUM UPTIME, MINIMUM MAINTENANCE

Fewer moving parts mean fewer, less costly repairs and reliable, trouble-free performance.

THE INDUSTRY'S HIGHEST OPERATING SPEEDS

With operating speeds up to 100" per second, the fast cycle time maximizes productivity and energy savings.

SLEEK, COMPACT DESIGN

Aesthetically crisp and clean, FasTrax doors have a small footprint and are refined in their appearance and movement.

FasTrax Clean

Top performing operations - from manufacturing plants and distribution centers to pharmaceutical companies and food processors - all tend to have one thing in common. High-speed, high-performance FasTrax doors.

FAST BECOMING
the industry standard

CLEAN DESIGN. FROM TOP TO BOTTOM.

ONE-PIECE RADIAL HEADER - Machined from a solid block of UHMW plastic. Meets both USDA and FDA standards for clean-up.

SMOOTH POLYPROPYLENE DOOR FABRIC - Higher resistance to acids and bases, and a lower water absorption rate than vinyls and urethanes. Highly resistant to mold. Superior washdown, even with harsh cleaning chemicals. Choice of colors and thicknesses to meet your application.

NON-CORROSIVE LEXAN AND UHMW SIDE FRAMES - Lightweight and easily removable to meet government guidelines for washdown and bacteria control. Side frames stand off from the wall to minimize surface-to-surface contact, reducing pockets where bacteria can grow.

WASHDOWN RATED DRIVE SYSTEM AND CONTROLS - Totally sealed and protected for worry-free washdown. Available with stainless steel motor, brake and gearbox.

SUPER CLEAN EDGE - Most doors have a non-cleanable closed chamber at the bottom of their curtain. Whether it is a loop seal, a hard bottom edge, or a pneumatic reversing edge, they are all harborage points for bacteria. Demand a "Fabric Edge, Nothing Else."

SPEED. IT RUNS IN THE FAMILY.

Incorporates the incredibly fast yet reliable FasTrax Traxion Drive System. Peak speeds up to 100"/second for superior environmental separation and control. Plus the incredible FasTrax TRUE Auto Re-feed™ - for fast, low-maintenance reliability. Various track configurations available.

A SAFER ENVIRONMENT.

Thru-beam photo eye system prevents the door from closing when an obstruction is detected. Soft-Edge technology eliminates hard bottom bars.
