Serious cold REMEDY

Fast, efficient, safe, with a super-tight seal. Time to put your cold storage needs on the FasTrax FR.

AN OPEN AND CLOSE CASE.

Speeds up to 100 in./sec. A tighter, more reliable seal. A more consistent thermal barrier. It adds up to less waiting for personnel and equipment and reduced energy costs. Yes, a new standard for on-the-job performance. But that's just for openers. FasTrax freezer doors feature a simple yet rugged design that reduces your maintenance and operational costs. They feature a flexible design platform that makes for simple, cost-effective installation. They deliver a number of exclusive safety features. And every system and component is designed and built to help you maintain temperature at minimal cost.

With an R-4 curtain there is no need for heat lamps.

The tightest sealing freezer door also fits into the tightest applications.

More productive cycles. Expect nothing less from FasTrax FR

You know the FasTrax reputation for quality and performance. Well, we're now in the freezer. And we've got it down cold.

ONE DESIGN FITS ALL - A single platform that gives you maximum design flexibility. No more multiple door configurations to engineer. No multiple application problems to deal with - FasTrax doors are built for exterior, interior, high-wind, cooler and freezer high-cycle applications

FLASH FREEZE - Speeds up to 100 in./sec. For faster cycles, less waiting, more productivity and less energy loss.

ON TRACK WITH YOUR NEEDS - Multiple track configurations and curtain storage systems to fit almost any application, anywhere in your plant, with minimal engineering modifications.

SAFETY - First, second and third. Includes all the industry-leading safety systems that are a part of the FasTrax heritage, including Soft-Edge™ Technology, thru-beam photo eyes and exclusive Virtual vision™.

INSULATION TO THE MAX - InsulMax curtain consists of a 1 inch layer of insulation sandwiched between two layers of tough, resilient 27-ounce fabric.

Worth the energy.

Exclusive, industry-first Thermal Air™ System and InsulMax R-4 curtain combine to give you the most energy-efficient way to handle your toughest cooler and freezer applications. Yes, this door is about saving time. But also lots of energy.

FasTrax FR sets the standard for freezer doors on conveyors.

Bottom Seal

Thermal Air seal

The only freezer door with Soft-Edge safety.
